Graduate Council Annual Report
2018 – 2019

The Graduate Council convened monthly from August through November in 2018, and January through April 2019. The Graduate Council is charged with the appointment of graduate faculty, all graduate curriculum matters, and the formulation of policies relating to graduate education. The Council reviewed and approved 38 new graduate faculty appointments and 68 graduate faculty reappointments. Related to curriculum proposals, the Graduate Council approved 40 new courses and 21 course revisions. Two new graduate certificates were established. Substantive revisions were approved for 13 degrees or concentrations, and there were 10 non-substantive curriculum revisions. Six program policy revisions were approved, and two revisions of articulation agreements were approved. The Graduate council approved the termination of five academic programs or concentrations.

Graduate Education Policy Actions and Announcements

August 2018

Announcements

1. Dr. McGee stated that she is getting to know all the Deans, the practices and policies. Graduate Studies had 400 students register for orientation, 161 rsvp, 117 logged in for live streaming. We had a good turnout for the coordinators meeting. Dr. Kirkby gave a preview of the CRM.
2. Dr. Kirkby said the CRM should go live sometime in the fall. A few technical issues still needed to be resolved.
3. Evelyn Roach demonstrated Curriculog and the various ways to submit and check proposals.
4. Dr. Grube announced that the whole university is looking at all policies and procedures. The topic of looking at GRE requirements for doctoral programs was also discussed.

September 2018

Graduate Education Policies

1. Admissions Policy had not made it to the board yet. The policy was discussed and revisions will be made and resubmitted to Graduate Council for review before moving to Academic Affairs for approval.
2. Academic Fresh Start. Graduate Council suggested taking out Fresh Start and letting it be its own policy.
3. Fourth Year of Graduate Assistantship Support: Dr. Phil Pfeiffer addressed the council about a proposal for a fourth year of GA support for dual degree students. Proposal was discussed. It was noted that, with the university's emphasis upon dual and interdisciplinary degrees, extending the allowable term for GAs would be of importance. It was noted that GA support most often comes from the departments and colleges, so they would need to be aware that when a student receives additional semesters of support that removes the opportunity for a GA position to be awarded to a new student. Dr. Kirkby volunteered to draft a proposal to be revisited at the October 22nd Graduate Council meeting.

Announcements

1. Dr. McGee: The final total for graduate students for Fall 2018 was 2458, which is up by 16 from Fall 2017. Recruiting season has started, and David Moore will be going on the road.

Dr. McGee is meeting with all the deans, and then she will meet with department chairs and coordinators.

2. Dr. Kirkby: We missed the starting date of September 10 for integrating with Banner. Still working on the checklists and letters of recommendation for applicants and staff. ITS is working on Banner integration. Dr. McGee and the CRM steering committee want to wait until after the holiday break to go live.
3. Input for September 27 Academic Council Report Retreat. An opportunity to discuss concerns and opportunities on:
 - a. Transfer Students
 - b. Dual Enrollment Initiative
 - c. New Programming and Program Delivery Modalities
 - d. International Students
 - e. Buncombe and Henderson County Pilot
 - f. Adult Recruitment
 - g. CRM
 - h. Data source and Usage

October 2018

Graduate Education Policy

1. Proposal for Fourth Year of GA Support for dual degree students. This proposal was brought up to the council at the September 2018 meeting by Dr. Phil Pfeiffer, who requested that we revise the Graduate Assistant policy to enable students to obtain more than two years of support for students who are seeking dual or parallel masters degrees. The Policy Purpose: The policy specifies the maximum appointment and award lengths for Graduate Assistants (GA's) and graduate Tuition Scholarships (TS's) respectively. Dr. Kirkby drafted the wording for the revised policy, which Graduate Council members read and provided feedback. Several items were discussed, and it was decided that more research and revision was needed. Dr. Marks said this policy would be revisited at next council meeting.

Announcements

1. Dr. McGee: School of Graduate Studies is sending Jennifer Brothers to Washington, D.C in November to attend a workshop on international transcripts.
2. Dr. Kirkby: CRM Update. We will be doing in-house testing and will ask graduate coordinators to test their part. Will be looking for bugs as we begin testing. We will have training sessions for coordinators, and there will be a staggered roll out for each program. We are also considering the purchase of additional licenses.

November 2018

February 2019

Graduate Education Policy

- 1. Eliminating GRE scores at the doctoral level: Dr. Johnston proposed that the GRE score requirement for doctoral programs should be moved from the School of Graduate Studies level to the department/program level. Masters programs' GRE Admission policies are already at the program level. The proposed change would allow each doctoral program to consider whether to incorporate the use of GRE scores in admission decisions at the program level as appropriate. Several points were brought up about this proposal, such as the GRE is not a good predictor of success; many schools are looking at doing away with the GRE score requirement for doctoral programs. Dr. Grube suggested that if council approves, Dr. McGee should write the proposal.

Announcements

- 1. Recruiting trip to India: Caleb Bennett reported on the trip in Dr. McGee's absence. Dr. McGee, Caleb Bennett, and Ramona Williams traveled to 8 different cities and met with faculty and students from various universities. It was a very successful trip with favorable reception. that had billboards posted, so this may be something we may want to consider in the future.
