

Office of the Dean

Statement of Understanding of Financial Aid Eligibility (Form A)

I understand that in order to be considered for several of the need-based scholarships offered by the Clemmer College of Education, I must file a 2018 Free Application for Federal Student Aid (FAFSA) by June 30, 2018.

The amount of federal financial aid for which a student is eligible is calculated by the FAFSA. The expected family contribution will be listed on the Student Aid Report (SAR). The SAR is a summary for the student and his/her family to review and determine if the information reported has been recorded accurately. The FAFSA is used to determine what type and how much aid a student is eligible to receive under federal guidelines.

I understand that the receipt of a Clemmer College of Education Scholarship may affect my eligibility for federal financial aid funds.
