

## Presidential Honors Community Service Scholars

The Presidential Honors Community Service Scholars program provides an opportunity for high-achieving students with a passion for community service to develop as active citizens, scholars, and leaders.

With a four-year honors curriculum and integrated experiential learning, the program aims to promote civic engagement and responsibility as an integral part of a 21st century education.

This cohort-based, scholarship program allows students to explore a variety of service opportunities; engage in meaningful, continuous, hands-on service; and empower themselves and the community to effect real change.

*Admission is competitive, and a limited number of scholarships are available each year. The scholarship awards \$6,000 per academic year and is renewable for eight semesters.*
