

HONORS COLLEGE

EAST TENNESSEE STATE UNIVERSITY

University Honors Scholars Program

The University Honors Scholars Program invites high-achieving students to join our community of undergraduate scholars pursuing excellence in diverse fields.

The program offers a distinctive honors curriculum with a focused liberal arts experience and an emphasis on undergraduate research. Our honors scholars, faculty, and staff will welcome you to campus, challenge you to think critically, assist you with your research interests, and help you to excel.

In addition, we sponsor activities, events, and programs designed to enhance the collective cultural and intellectual environment and foster a more global perspective within the university community.

Admission is competitive; 22 funded and 2 unfunded scholars are admitted each fall. Scholarships include 8 semesters of in-state and out-of-state tuition (if applicable), mandatory fees, most course fees, a standard residence hall and meal package, and a stipend each semester.
