## Crypto Facts and Future coming to the Tri-Cities

### Tennessee's Premier Cryptocurrency and Blockchain event to be held in Johnson City.

**Johnson City, TN - August 21** Symply Data Centers, an affiliate member of the ETSU Innovation Lab, is hosting a first of its kind event on October 13th, 2018 in Johnson City. Did you know that the number two most searched word in Google last year was Bitcoin? Bitcoin and cryptocurrencies along with the foundation Blockchain technology have been described as the next generation of Internet technology. This conference will give you the tools to be prepared for this predicted future.

Scheduled to present at the conference are:

- Keynote Address - Presented by Nashville's multiple Grammy award winning music producer Reid Shippen.
- Investing in Cryptocurrencies - Presented by Ran NeuNer, CNBC Africa, the 9th most influential individual in cryptocurrencies worldwide.
- Blockchain applications - Presented by Eastman Chemical Company Foresight Strategies Kelsey McMehan.
- Cryptocurrency Mining - Presented by Symply Data Center President John Cannon and Turkish businessman Murat Beşkök.
- Applications with cryptocurrencies - Presented by [OST.com](http://OST.com) from Berlin Germany.
- Cryptocurrency for Merchants - Presented by Rocket Boost Media President Rob Jordan and Kingsport businessman David Meade.
- Jobs of the Future - Presented by ETSU Innovation Lab director Dr. Audrey Depelteau and Washington DC crypto-coach Ashonzay Matlock, Jr.
- Reception entertainment by Alex Johnson the Crypto Magician.

Reid Shippen states "Blockchain is, I believe, the most significant evolution of technology since the invention of the Internet. I'm extremely excited to participate in this event and looking forward to bringing it to East Tennessee."
