- While implementing the DNP Project, refine the project to incorporate relevant models, theories, guidelines, project modifications, and any additional steps needed to successfully complete the project
- Continue the evidence-based Review of Literature
- Implement all aspects of the DNP Project (design and delivery)
- Refine the data collection and analysis plans, including statistical analysis (target: Week 8 of the academic term)
- Conduct any DNP Project- related data collection, including project evaluation data (target: Week 14 or the academic term)
- Complete reflection on and evaluate accomplishment of semester goals & objectives

- Complete DNP Project implementation
- Analyze DNP Project outcomes and evaluate project effectiveness (demonstration of practice change)
- Complete Project paper with addition of the following headings:
 - a. Discussion of findings
 - b. Reflection of Conceptual framework/Model/Theory to project findings
 - c. Nursing Implications
 - aa. Ask how does this create a change in nursing practice?**
 - bb. How does this relate to or impact health policy**
 - d. Conclusions
 - e. Limitations
 - f. Recommendations
- Present findings/results/ recommendations of the DNP Project to collaborating sites
- Complete final reflection on and evaluate accomplishment of the DNP Essentials
- Complete reflection on and evaluate accomplishment of semester goals & objectives

NRSE 6860, DNP Project (3 cr)

- Complete final DNP Project Paper
- Following DNP Project Chair approval, notify Graduate Programs office two weeks in advance of defense date. Graduate Programs will publicize defense.
- Present and Defend the Completed DNP Project (Results of Examination, Report, and/or Culminating Experience form)
- Submit final presentation and scholarly paper electronically and in paper format to the College of Nursing
