AI Assistance in Student Assignments

Writing

Low AI Involvement
AI checks or corrects spelling or grammar.

Sample Prompt
"Check my short story for spelling, grammar, and punctuation mistakes."

Medium AI Involvement
AI suggests or makes improvements to sentences for clarity and coherence.

Sample Prompt
"Suggest how to rework this paragraph for clarity."

High AI Involvement
AI generates paragraphs, restructures paragraphs, or refines the logic of arguments.

Sample Prompt
"Here is a rough outline for my essay on climate change. Refine my arguments and generate a draft."

Research

Low AI Involvement
AI provides basic information, data, or statistics or aids in finding sources or references.

Sample Prompt
"Provide basic information on the history of the printing press and sources for further reading."

Medium AI Involvement
AI suggests ideas, provides examples, summarizes articles, or identifies relevant research.

Sample Prompt

"Identify key psychologists in Neuropsychology, summarize their theories, and suggest relevant academic papers."

High AI Involvement

AI substantially aids in developing arguments or theories, formulating research questions, or performing analysis.

Sample Prompt

"Develop a research question and hypothesis about the correlation between social media use and mental health."

Critical Thinking

Low AI Involvement
Sample Prompt

"Suggest arguments for a debate on the merits and drawbacks of space exploration."

Medium AI Involvement

AI helps identify gaps in arguments, analyzes different viewpoints, or formulates questions.

Sample Prompt

"Analyze my surveillance ethics essay for weak points, propose alternate views, and craft insightful questions."

High AI Involvement

AI assists in proposing novel arguments or theories, critically examining the work of others, or generating insights.

Sample Prompt

"Propose new arguments and generate insights for my essay on the cultural effects of globalization."
